DAKSHAYANI KALE

Aspiring Software Engineer / AI-ML Engineer

+91-9014634627 | dakshayani0415@gmail.com | LinkedIn | GitHub | Kakinada, AP, India

Education

Aditya Engineering College — Kakinada, AP, India

Bachelor of Technology in Information Technology (IT) (CGPA: 9.10/10) — *2023 – 2027*

Technical Skills

Programming Languages: C, C++, Python, Java, JavaScript, SQL

AI/ML & Data Science: Machine Learning (ML), Deep Learning, Model Evaluation, Data Preprocessing, PyTorch, FastMCP, FastAPI

Systems & Core CS: Data Structures & Algorithms (DSA), Operating Systems, Computer Architecture, Memory Management, OOP, SDLC

Databases & Cloud: MongoDB, PostgreSQL, MySQL, Oracle Cloud Infrastructure (OCI), RESTful APIs

Tools & Environment: Linux/Unix Shell, Git, GitHub, Docker, Postman, Android Studio

Experience

AI Intern — May 2026 – June 2026

EduExpose — *Hyderabad, TS (Hybrid)*

- Gained hands-on experience developing Machine Learning models, feature extraction techniques, and AI data preprocessing pipelines.
- Optimized low-overhead data ingestion workflows using Python scripts and Linux environment utilities for model evaluation.

Full Stack Development Intern — May 2025 – May 2026

Technical Hub Pvt. Ltd. — *Kakinada, AP*

- Engineered high-performance software modules applying C/C++, JavaScript, and Object-Oriented Programming (OOP) principles.
- Designed and optimized backend API endpoints and database queries to ensure low memory footprint and fast execution times.
- Executed automated unit and integration testing using Postman, validating edge cases, system boundaries, and HTTP responses.
- Collaborated with cross-functional teams using Git/GitHub for version control within a Linux terminal workflow.

Projects

TechNexus | *Python, FastAPI, FastMCP, React.js, MongoDB* — Demo

- Architected a scalable task orchestration platform utilizing FastAPI and Python backend services for efficient request handling.
- Implemented asynchronous REST APIs and optimized database indexing to achieve low-latency real-time state synchronization.
- Validated system security, API route execution times, and memory efficiency across high-throughput server endpoints.

CampusFix | *Android SDK, Java, XML, Firebase* — Demo

- Engineered a native mobile application enabling real-time infrastructure tracking and asynchronous image data uploads.
- Designed responsive UI views using XML and dynamic RecyclerViews, optimizing client-side memory and thread management.
- Integrated Firebase backend services for persistent logging, real-time data sync, and secure authentication flow.

Competitive Programming & Achievements

- **LeetCode**: 1563 Contest Rating | Solved 150+ DSA Problems in C/C++/Python | Earned 50 Days Badge
- **HackerRank**: 5-Star Gold Badge in Problem Solving, C, Java, and Python
- **CodeChef**: Peak Rating – 1304 | **GeeksforGeeks**: Solved 75+ DSA OS Problems
- **Academic Excellence**: Maintained 9.10/10 CGPA in B.Tech Information Technology (IT)

Certifications

- **Oracle Certified Foundations Associate** – Database, GenAI & Cloud Infrastructure (OCI 2025), Oracle
- **Google Cloud Career Launchpad:** Generative AI Leader Track – Google Cloud
- **MongoDB Certified Associate Developer** – MongoDB | **GitHub Foundations** – Microsoft
